# Accessibility

These checks highlight opportunities to improve the accessibility of your web app. Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so manual testing is also encouraged.

#### TABLES AND LISTS

Lists do not contain only elements and script supporting elements (<script> and <template>).

These are opportunities to improve the experience of reading tabular or list data using assistive technology, like a screen reader.

#### ADDITIONAL ITEMS TO MANUALLY CHECK (10)

Show

These items address areas which an automated testing tool cannot cover. Learn more in our guide on <u>conducting an accessibility</u> <u>review</u>.
